

Gaurav Patil

Software Engineer/Software Developer

7499028991 | gauravp8991@gmail.com | Dhule | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Motivated and detail-oriented Computer Science graduate seeking a Full Stack Software Engineer role, with a primary focus on Java, Spring Boot, and React. Proficient in building scalable web applications using the Java ecosystem, complemented by hands-on experience with the MERN stack (MongoDB, Express.js, React, Node.js). Eager to contribute to a dynamic development team and grow as a versatile developer by solving real-world problems with clean, efficient code.

SKILLS

Languages	: Java, JavaScript, Python
Technologies/Frameworks	: Spring Boot, Spring MVC, Spring Data, Spring Security, Spring AOP, Node.js, Express.js, ReactJS
Databases	: SQL, MySQL, MongoDB
Data Structures & Algorithms	: Proficient with arrays, linked lists, trees, graphs, sorting, searching, recursion, dynamic programming
Developer Tools	: Postman, Git, Github, Eclipse, IntelliJ IDEA

EDUCATION

Ssvps B.S. Deore College of Engineering, Dhule - <i>B.Tech, Computer Engineering</i> - GPA: 7.44	Sep 2021 — Jul 2025
Ssvps College of Science, Dhule - <i>HSC (12th)</i> - GPA: 70.67%	Jun 2020 — Feb 2021
J.R. City High School, Dhule - <i>SSC (10th)</i> - GPA: 67%	Jun 2018 — Mar 2019

PROJECTS

Book-A-Bite	Apr 2025 — May 2025
<ul style="list-style-type: none">Developed RESTful APIs using Spring Boot to power the backend of a restaurant reservation system (“Book a Bite”).Designed and implemented modular service layers using Spring MVC for restaurant listing, table booking, and user authentication.Integrated Spring Security with JWT authentication to manage secure access for users and admin roles.Used Spring Data JPA with Hibernate for seamless ORM and interaction with the database.Developed a responsive and user-friendly React.js frontend for restaurant browsing, table booking, and reservation tracking using React Router, Axios, and Context API.Enabled CORS configuration for integration with a separate React.js frontend.	
Alumni Association Platform, Link	Jan 2025 — Jan 2025
<ul style="list-style-type: none">Developed a full-stack cloud-ready platform to manage alumni engagement and institutional connectivity.Implemented authentication using JWT and managed user roles securely.Backend developed in Java using Spring Boot and Spring MVC for scalable RESTful APIs.Frontend built with React for responsive user experience.Integrated database operations using Spring Data JPA and MySQL.	

SOFT SKILLS

- Strong communication skills – both verbal and written
- Logical thinking and problem-solving mindset
- Team player with openness to work in any particular technology area
- Ready to support and respond to production environments
- Highly adaptable, disciplined, and committed to continuous learning

TRAINING AND COURSES

Java Full Stack, Symbiosis Skills and Professional University (CSR Batch)

- Gained hands-on experience in core Java, object-oriented programming, and backend development.
- Practiced building RESTful web services and integrating them with frontend frameworks.
- Understood the full software development life cycle and worked in Agile team environments with regular code reviews and stand-ups.
- Participated in peer collaboration sessions, assisting others in resolving code-level issues and testing logic.
