SUMMARY

Final-year B.Tech student in Electronics Engineering with a strong grasp of software engineering fundamentals including Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), and database systems. Hands-on practical experience in Java, JavaScript, and MySQL, with the ability to apply design principles effectively in both frontend and backend development. Adept at debugging, validating, and supporting applications in production-like environments. A fast learner with strong analytical thinking, problem-solving abilities, and excellent communication skills, committed to contributing meaningfully in dynamic, team-driven, and growth-oriented technology roles.

EDUCATION

Bachelor of Technology in Electronics Engineering, Dr. Babasaheb Ambedkar Technological University Jan '21 — Jan '25
(GPA: 7.5) Dhule, India

HCS in Science Stream, Jai Hind College (GPA: 78.50) Dhule

CERTIFICATIONS

Java Full Stack Development program, Symbiosis Skills and Professional University

PROJECTS

Zomato UI Clone Nov '24 — Dec '24

- The Zomato clone project aims to replicate the core functionalities and design of the popular online food delivery platform, Zomato.
- Using HTML, CSS, JavaScript, and Java, this project involves building a user interface that allows users to browse restaurants, view menus, place orders, and track deliveries.
- Applied UI/UX principles to create an intuitive, responsive interface. Gained experience in requirement understanding, design implementation, and modular coding

Online Contact Manager Dec '24 — Jan '25

- Developed a full-stack Online Contact manager using Java.
- Using MySQL, Eclipse IDE Implemented a responsive frontend using HTML, CSS, and JavaScript, while the backend is built with Java ensuring smooth data handling and storage with MySQL.
- Optimized SQL queries for faster search and retrieval of contact records.
- Built a responsive UI using HTML, CSS, and JavaScript with proper separation of frontend/backend logic. Debugged backend issues and handled test cases to ensure robustness of the application. Demonstrated knowledge of design principles, DBMS, and data handling in production-like settings.

SKILLS

Programming Java, C/C++, JavaScript, OOPS

Web Technologies HTML/CSS, React.js

Database Management SQL, MySQL, Normalization, Joins

Development Tools VS Code, Eclipse, IntelliJ IDEA, Git, Github

Interpersonal Skills Excellent Communication skills, Strong problem-solving abilities, Effective teamwork and collaboration, Adaptability in fast-paced environment

Operating Systems Windows

TRAINING AND COURSE

Full Stack Java , Symbiosis Skills and Professional University Jul '24 — Sep '24

Completed an in-depth Java Full Stack Development program at Symbiosis Skills and Professional University, gaining hands-on experience in building scalable web applications. Developed expertise in core Java, SpringBoot, Hibernate, and front-end technologies (HTML, CSS, JavaScript). The course emphasized practical learning through real-world projects and industry-oriented training. Gained proficiency in Java, Spring Boot, Hibernate, HTML, CSS, and JavaScript. Built scalable, full-stack web applications through hands-on projects. Received industry-oriented training with real-world development exposure.
